# NATIONAL DIGITAL LITERACY MISSION

Department of Electronics and Information Technology Ministry of Communications and Information Technology Government of India

# **NATIONAL DIGITAL LITERACY MISSION**

Making one person in every family digitally literate is one of the integral components of the Prime Minister's Vision of "Digital India". The National Digital Literacy Mission (NDLM) envisages initially to provide Information and Communication Technology (ICT) training to 10 lakh (Ten lakh) persons, one in every eligible household in selected Blocks in each State/ UT of the Country. The objective is to impart basic ICT skills relevant to the need of the trainee, which would enable the citizen to use IT and related applications and participate actively in the democratic process and further enhance opportunities for their livelihood. The person shall be able to access information, knowledge and skill through the use of digital technologies.

The Scheme is to be implemented in each State/ UT. The States/ UTs are categorized into three broad categories (Category A, B and C) based on its population. Implementation of the Scheme is to be carried out in around 5 - 7 Districts in Category A States, 4 - 5 Districts in Category B States and 2 - 3 Districts in Category C States/ UTs.

Ten lakh citizens would be covered under the Scheme including one lakh to be trained by Industry, NGOs and others through their own resources/ under Corporate Social Responsibility.

# **Definition of Digital Literacy**

"Digital Literacy is the ability of individuals and communities to understand and use digital technologies for meaningful actions within life situations".

The two levels of IT training envisaged under the scheme to have following broad objectives:

**Appreciation of Digital Literacy (Level 1):** To make a person IT literate, so that he can operate a computer/ Digital access devices (like tablets, etc.), send and receive emails and search Internet for information, etc.

**Basics of Digital Literacy (Level 2):** Besides IT literacy at a higher level, the citizen would also be trained to effectively access the various e-Governance services being offered to the citizen by the Government and other agencies.

# **Learning Outcomes or Competency Standards**
